Hello, I'm Navaneeth Chintala

I'm a **DevOps Engineer** 💻 @ **Genpact** based in Hyderabad, India.

For me, it's about **Developing code**, building infrastructure, and creating seamless **Integrations** ∞

I'm all about turning challenges into opportunities, like turning lemons into lemonade 🍋 🥤 !

Experience

DevOps Engineer @ **Genpact**   Hyderabad, India [2023 – Present]

- Developed Python packages to execute security scans, artifact builds, repo management, publishing artifact and VM provisioning via CLI and installable using pip

- Delivered containerized and non-containerized services to streamline integration and deployment.

- Set-up a Kubernetes cluster in a VM using Minikube for local orchestration and testing.

DevOps Intern @ **GE Healthcare**   Bengaluru, India [2022 – 2023]

- Worked on DevSecOps tasks, collecting CVE data from scans (Twistlock, JFrog, Sonar, Dependency Check, Nessus) and storing in PostgreSQL DB.

- Used Llama3 LLM to categorize CVE risks and suggest mitigation strategies.

- Set-up automated workflows for CI/CD, to improve efficiency and scalability.

MTech Integrated Software Engineering @ **VIT – AP University**   Amaravathi, India [2018 – 2023]

- Aced courses like Java programming, Computer Networks and secured **8.93 CGPA** 🎓

- Club Manager @ **Block Chain club** and member @ **Null – Chapter club**.

- Developed a prototype for automated car parking system using Arduino.

Skills

🐍 Python	☕ DSA with Java	⎈ Kubernetes	🐳 Docker
🚀 Shell Scripting	🔎 Jenkins	📝 GIT	⚙️ DevOps Tools CI / CD

Certifications

👷 GE Healthcare Internship   ☁️ Google Cloudboost Qwicklabls   🚩 OSC Hacktoberfest

Hobbies

🏎️ Automotive Geek   🏀 Basketball   🌍 Geo Politics
